	2107	300.2	250.07	6.5	12.49	72
	2107.5	318.6	265.39	6.5	13.07	75
	2108	337	280.72	6.5	13.64	79

* Tonnes based on wheat density of 833kg/m³

** Length of auger based on a lift angle of 35 degrees

Grainmaster Silos has been manufacturing a variety of different storage solutions, servicing a number of industries worldwide, collectively for over 125 years.

Grainmaster Silos incorporate a large range of conical-based silos in capacities from 5 tonnes through to 300 tonnes for both on-farm and commercial applications.

There are also flat-bottom silos available with capacities up to 6000 tonnes.

The complete Grainmaster product range can be manufactured from mild steel, galvanized sheet and coil, stainless steel, aluminium or colorbond, to ensure the best results for the product being stored.
